Capture Pro-Level Recordings Every Time

With its 32-bit float recording mode, the DR-07XP and DR-05XP ensure your audio recordings will always be clear, distinct, and free of distortion that could ruin your recording — and you'll never need to worry about setting input levels.

Stereo Condenser Microphones

DR-05XP

omnidirectional

DR-07XP

X-Y config

unidirectional

A-B config

The DR-05XP features omnidirectional condenser microphones that can withstand high sound pressure levels (up to 125dB SPL), reducing the risk of mic distortion even in loud environments. The DR-07XP features unidirectional stereo condenser microphones with adjustable A/B or X/Y configurations, allowing you to capture incredibly vivid stereo recordings in any setting.

Simplicity in Your Palm

With the DR-07XP and DR-05XP, the complexities of audio recording are a thing of the past. Easily access every feature from the palm of your hand. Plus, the backlit LCD screen means no squinting; just clear and concise navigation any time of day, in any environment.

Your Portable Recording Studio

The DR-07XP and DR-05XP are not only a powerful portable recorder — it's also a 2-in/2-out USB-C audio interface you can use to record anywhere, directly to audio recording software on your Mac or PC.

Ideal for Musicians

The DR-07XP and DR-05XP are a fantastic portable recording solution for musicians with its high-quality microphones, 32-bit float recording, built-in tuner, reverb, overdubbing and more.
